

Training Christian teachers

What a amazing time I had in Bangkok Thailand with Darren Gentry & his International Community School! Enjoy these pictures on the back of the school, the Weber family & the many other blessed experiences that I enjoyed there with 200 plus teachers.

When I arrived on Wednesday night at about midnight I was so pleased to see George waiting for me at the huge airport. We made the trip to his home & talked till 1 AM. I got my strength back while getting acquainted with Stacy & the two youngest Webers. That afternoon I had an hour & one-half tour of the school & met so many amazing people there that teach & administrate & perform so many other tasks for the glory of the Lord. What an amazing facility—a building for the elementary school, one for the Junior high & another for the Senior High. All of them are surrounded by a huge soccer field & a swimming pool. And a huge new athletic facility to come!

On Friday at 7 AM we met at the school & began our two hour bus ride to the resort where our beginning retreat of the school year began. I was in charge of five sessions for the whole academic team on how to build small groups. We spent each hour talking about the leaders activities & the students feelings & thoughts that are characteristic of each session. We concluded each session playing two or three Raccoon Circle games that clearly demonstrate how that section works. Our sessions were on forming, storming, norming, performing, & finally transforming into the good groups that God wants us to be in. Thanks for your prayers for me. What a great time we had.

On the way home, we stopped & toured a waterfall in the mountain passes of Thailand. On Sunday I got to participate in the Bang Na Christian Fellowship with Americans & Thailanders—amazing!

Getting reacquainted with Cedarville students...

Scott Hayden is the Curriculum & Instruction person for ICS Bangkok. His duties are many but his passion is singular—to lift up the name of the Lord Jesus Christ in Thailand & see many come to the Savior! What a pleasure it was to receive a tour of the school's facilities from him. He told me of the background & specialties of so many there. A school of 915 students! Wow, that is something else. He also assisted me in the workshops by being the official introductory person. What a great time I had with his family of wife & four girls swimming in the school's pool. We shared a picnic supper with lots of great foods too!

George Weber III was a great host with his wife & three kids! He gave so sacrificially to my time there including getting up at 1:30 AM to give directions to the delivery truck that brought my suitcase of supplies from the airport. Bless you!
