

Dear Praying Family,

Thank you again for all your prayers.  
Jonah remains the same. He was very uncomfortable Tuesday nite,  
kept having his trach tube come out.

He is a little better.

We are praying for recovery so he can return to the rehab hospital.  
He cannot breath w/o the machine, cannot take any nutrition thru his feeding tube,  
only intravenous.

We are praying for several miracles in these areas.  
Please pray for our families perseverance. We have outreach event after outreach event at the  
Church.

The lord is doing some great things in the work here, and it is very exciting.

In Christ's Love,

Marty for Val
